

**SHORT COURSE P5
ON
FUNDAMENTALS OF CENTRIFUGAL PUMP AND SYSTEM INTERACTION**

Mike Volk is the founder and president of Volk & Associates, Inc. a consulting and training firm specializing in pumps and pump systems, www.volkassociates.com. Founded in 1982, the company is committed to providing comprehensive consulting and training services to engineers and users of all pump types. Volk is a registered professional engineer, holds Masters of Science degrees in Mechanical Engineering and Business, and has over 35 years of practical engineering experience in the field of pumps and pump systems. Prior to founding his own firm, Volk had experience in pump system design for a large engineering consultant, held various engineering and marketing positions for a major pump company, and managed an OEM pump repair center. He is the author of *Pump Characteristics and Applications*, 2nd Edition and has taught hundreds of pump training classes around the world.
